

# PETER KETCHAM

## PROFILE

Experienced IT manager with strong global operational and site reliability experience. Skilled in multi-tier data center operations and hybrid cloud / on-premise environments. Comfortable with high-availability production support, and leading high-functioning teams.

## EXPERIENCE

### **Manager, Integrated Production Support - Thomson Reuters** 2016 - 2021

Led a high performing team of engineers responsible for global 24x7 operations powering over \$1B in revenue.

- Served as the primary escalation point for customers and partners.
- Responsible for tracking and execution of all team projects and tasks.
- Built strong and trusted relationships between teams. Bridged gaps in knowledge, experience, and cultures to drive success.

### **Manager, Site Reliability Engineering - Thomson Reuters** 2017 - 2019

Led a team of SREs responsible for support of 70 applications spanning multiple AWS regions and company-owned datacenters.

- Worked closely with managers across the business to coordinate work, standardize release procedures, and adhere to ITIL best practices and guidelines.
- Analyzed performance metrics. Delivered regular reports to senior leadership.

### **Team Lead, TRTA Application Support - Thomson Reuters** 2013 - 2016

Provided day-to-day leadership to the Application Support team, including the coordination of staffing and support levels.

- Oversaw the transition of the team from the Data Center Operations SBU into Tax & Accounting.
- Established team goals, completed regular performance reviews, and addressed performance concerns.
- Interviewed and hired staff in multiple global locations.
